Proficient Front End Web Developer with a passion for creating interactive, engaging websites and applications. Expert in HTML/CSS, JavaScript, React, Node, Next, Angular, React Native.

Projects

GitHub Portfolio Generator (React App)
The GitHub Portfolio Generator is a React-based web application that allows users to quickly create a visually appealing portfolio by fetching and displaying information from their GitHub profile. I have made this React app using GitHub APIs.
https://github.com/iamtejas23/git-portfolio-generator

Punk (React Web App)
The Punk API takes Brewdog's DIY Dog and turns it into a searchable, filterable API that's completely free and open source.
https://github.com/iamtejas23/punk

Portfolio (Next Js)
A single-page portfolio to showcase my projects. made with Next. Js App.
https://tejasmane.netlify.app/
https://github.com/iamtejas23/portfolio

Thunder Security (React Native App)
Thunder Security App The Thunder Security App is a comprehensive mobile application designed to enhance your digital security by providing real-time alerts and insights into potential threats to your email and password security.
https://github.com/iamtejas23/thunder

Thunder Wallet (React Native App)
This mobile app allows users to track their expenses by adding transactions with categories and amounts.
https://github.com/iamtejas23/thunder-wallet
